

# Safety Data Sheet

according to the (US) Hazard Communication Standard (29 CFR 1910.1200)

ion date: 21.02.2019	Version: 6.1	Print date: 21.02.2019
TION 1: Identification		
duct identifier		
Trade name/designation:	Buffer, Refere	nce Standard, pH 7.00 ± 0.01 at 25°C
Product No.:	BDH5054-4L	
Synonymes:	no data availa	
CAS No.:	not applicable	
Other means of identification:		
evant identified uses of the	substance or mixture and us	ses advised against
Recommended Use:	For Further Ma	nufacturing Use Only
Jses advised against:	Not for Human	or Animal Drug Use

# **SECTION 2: Hazard identification**

# 2.1 Classification of the substance or mixture

# GHS Classification in accordance with 29 CFR 1910.1200 (OSHA HCS)

This mixture is classified as not hazardous according to regulation 29 CFR 1910.1200 (OSHA HCS)

#### 2.2 Label elements

# Labelling in accordance with 29 CFR 1910.1200 (OSHA HCS)

According to regulation 29 CFR 1910.1200 (OSHA HCS) the product does not have to be labelled.

#### Hazards not otherwise classified (HNOC)

Not regulated

# **SECTION 3: Composition / information on ingredients**

#### 3.1 Substances

not applicable

#### 3.2 Mixtures

Hazardous ingredients Classification according to the OSHA Hazard Communication Standard 29 CFR 1910.1200

Substance name	Concentration	Product identifier	Hazard classes and hazard categories
Sodium azide	< 0.1%	CAS No.: 26628-22-8	Acute Tox. 1 - H310
			Acute Tox. 2 - H300+H330
			STOT SE 1 - H370
			STOT RE 2 - H373
			Eye Irrit. 2 - H319
			Skin Irrit. 2 - H315

# **SECTION 4: First aid measures**

#### 4.1 General information

When in doubt or if symptoms are observed, get medical advice. If unconscious place in recovery position and seek medical advice. Never give anything by mouth to an unconscious person or a person with cramps. Change contaminated, saturated clothing. Do not leave affected person unattended.

# After inhalation

Remove casualty to fresh air and keep warm and at rest. If breathing is irregular or stopped, administer artificial respiration. In case of respiratory tract irritation, consult a physician.

#### In case of skin contact

After contact with skin, wash immediately with plenty of water and soap. Remove contaminated, saturated clothing immediately. In case of skin reactions, consult a physician.

#### After eye contact

In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist. Protect uninjured eye. Remove contact lenses, if present and easy to do. Continue rinsing.

#### In case of ingestion

If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention. Do NOT induce vomiting. Give nothing to eat or drink.

#### 4.2 Most important symptoms/effects, acute and delayed

no data available

#### 4.3 Indication of any immediate medical attention and special treatment needed

no data available

# 4.4 Self-protection of the first aider

First aider: Pay attention to self-protection!

#### 4.5 Information to physician

no data available

# **SECTION 5: Fire fighting measures**

### 5.1 Extinguishing media

Suitable extinguishing media The product itself does not burn. Co-ordinate fire-fighting measures to the fire surroundings.

#### Extinguishing media which must not be used for safety reasons no restriction

#### 5.2 Specific hazards arising from the chemical

In case of fire may be liberated: Pyrolysis products, toxic

# 5.3 Advice for firefighters

DO NOT fight fire when fire reaches explosives. Protective equipment and precautions for firefighters Wear a self-contained breathing apparatus and chemical protective clothing.

#### **Additional information**

Do not allow run-off from fire-fighting to enter drains or water courses. Do not inhale explosion and combustion gases. Use water spray/stream to protect personnel and to cool endangered containers.

In case of fire: Evacuate area.

# **SECTION 6: Accidental release measures**

# 6.1 Personal precautions, protective equipment and emergency procedures

In case of major fire and large quantities: Remove persons to safety.

#### **6.2 Environmental precautions**

Discharge into the environment must be avoided.

#### 6.3 Methods and material for containment and cleaning up

Spilled product must never be returned to the original container for recycling. Collect in closed and suitable containers for disposal.

#### 6.4 Additional information

Clear spills immediately.

# SECTION 7: Handling and storage

# 7.1 Precautions for safe handling

All work processes must always be designed so that the following is as low as possible:

Inhalation skin contact Eye contact Use extractor hood (laboratory). If handled uncovered, arrangements with local exhaust ventilation have to be used. If local exhaust ventilation is not possible or not sufficient, the entire working area must be ventilated by technical means.

#### 7.2 Conditions for safe storage, including any incompatibilities

Recommended storage temperature: no data available Keep container tightly closed and in a well-ventilated place. Keep/Store only in original container.

# 7.3 Specific end use(s)

no data available

# SECTION 8: Exposure controls/personal protection

#### 8.1 Control parameters

Does not contain substances above concentration limits fixing an occupational exposure limit.

#### 8.2 Engineering controls

#### Appropriate engineering controls

Technical measures and the application of suitable work processes have priority over personal protection equipment. If handled uncovered, arrangements with local exhaust ventilation have to be used.

#### Personal protection equipment (PPE)

Wear suitable protective clothing. When handling with chemical substances, protective clothing must be worn.

# Eye/face protection Eye glasses with side protection

Skin protection

Wear suitable gloves. When handling with chemical substances, protective gloves must be worn. In the case of wanting to use the gloves again, clean them before taking off and air them well. Check leak tightness/impermeability prior to use.

By short-term hand contact	
Suitable material:	NBR (Nitrile rubber)
Thickness of the glove material:	0,12 mm
Breakthrough time (maximum wearing time):	> 480 min
By long-term hand contact	
Suitable material:	NBR (Nitrile rubber)
Thickness of the glove material:	0,12 mm
Breakthrough time (maximum wearing time):	> 480 min

Respiratory protection

Usually no personal respirative protection necessary.

#### Additional information

Wash hands before breaks and after work. Avoid contact with eyes and skin. When using do not eat, drink or smoke. Provide eye shower and label its location conspicuously.

Environmental exposure controls no data available

# SECTION 9: Physical and chemical properties

# 9.1 Information on basic physical and chemical properties

(a) Appearance	
Physical state:	liquid
Color:	colorless
(b) Odour:	odourless
(c) Odour threshold:	no data available

# Safety relevant basic data

(d) pH:	7
(e) Melting point/freezing point:	~0 °C
(f) Initial boiling point and boiling range:	~100 °C
(g) Flash point:	no data available
(h) Evaporation rate:	no data available
(i) Flammability (solid, gas):	not applicable
(j) Flammability or explosive limits	
Lower explosion limit:	no data available
Upper explosion limit:	no data available
(k) Vapour pressure:	no data available
(I) Vapour density:	no data available
(m) Relative density:	no data available
(n) Solubility(ies)	
Water solubility (g/L):	no data available
Soluble (g/L) in Ethanol:	no data available
(o) Partition coefficient: n-octanol/water:	no data available
(p) Auto-ignition temperature:	no data available
(q) Decomposition temperature:	no data available
(r) Viscosity	
Kinematic viscosity:	no data available
Dynamic viscosity:	no data available
(s) Explosive properties:	not applicable
(t) Oxidising properties:	not applicable

# 9.2 Other information

no data available
no data available

# SECTION 10: Stability and reactivity

# 10.1 Reactivity

no data available

## **10.2 Chemical stability**

The product is chemically stable under standard ambient conditions (room temperature) .

#### **10.3** Possibility of hazardous reactions

no data available

#### 10.4 Conditions to avoid

no data available

#### **10.5 Incompatible materials**

no data available

# **10.6 Hazardous decomposition products**

no data available

# **10.7 Additional information**

no data available

# SECTION 11: Toxicological information

# **11.1 Information on toxicological effects**

#### Acute effects

Acute oral toxicity: Sodium azide - LD50: > 27 mg/kg - Rat - (RTECS)

Acute dermal toxicity: Sodium azide - LD50: > 20 mg/kg - Rabbit - (RTECS)

Acute inhalation toxicity: no data available

#### Irritant and corrosive effects

*Primary irritation to the skin:* not applicable

*Irritation to eyes:* not applicable

*Irritation to respiratory tract:* not applicable

#### **Respiratory or skin sensitization**

In case of skin contact: not sensitising After inhalation: not sensitising

#### STOT-single exposure

not applicable

#### STOT-repeated exposure

not applicable

# CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)

# Carcinogenicity

The table below indicates whether each agency has listed any ingredient as a carcinogen.

no data available	ACGIH	IARC	NTP	OSHA

# Germ cell mutagenicity

No indications of human germ cell mutagenicity exist.

#### **Reproductive toxicity**

No indications of human reproductive toxicity exist.

#### Aspiration hazard

not applicable

#### Other adverse effects

no data available

#### Additional information

no data available

# **SECTION 12: Ecological information**

# **12.1** Ecotoxicity

# Fish toxicity:

Sodium azide - LC50: 2.8 mg/l (96 h)

# Daphnia toxicity:

Sodium azide - EC50: 5.3 mg/l (48 h)

Sodium azide - LC50: 9 mg/l (48 h)

#### Algae toxicity:

Sodium azide - EC50: 0.348 mg/l (96 h)

Bacteria toxicity: no data available

#### 12.2 Persistence and degradability

no data available

#### 12.3 Bioaccumulative potential

Partition coefficient: n-octanol/water: no data available

# 12.4 Mobility in soil:

no data available

## 12.5 Results of PBT/vPvB assessment

no data available

## 12.6 Other adverse effects

no data available

# **SECTION 13: Disposal considerations**

# 13.1 Waste treatment methods

#### Appropriate disposal / Product

Dispose according to legislation. Consult the appropriate local waste disposal expert about waste disposal.

Waste code product: no data available

#### Appropriate disposal / Package

Dispose according to legislation. Handle contaminated packages in the same way as the substance itself.

#### Additional information

no data available

# **SECTION 14: Transport information**

# Land transport (DOT)

No dangerous good in sense of this transport regulation.

# Sea transport (IMDG)

No dangerous good in sense of this transport regulation.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code not relevant

# Air transport (ICAO-TI / IATA-DGR)

No dangerous good in sense of this transport regulation.

# **SECTION 15: Regulatory information**

# Safety, health and environmental regulations/legislation specific for the substance or mixture

#### SARA 313 Components

- Sodium azide - CAS No.: 26628-22-8

#### **Massachusetts Right To Know Components**

- Sodium phosphate dibasic anhydrous CAS No.: 7558-79-4
- Sodium azide CAS No.: 26628-22-8

#### Pennsylvania Right To Know Components

- Sodium phosphate dibasic anhydrous CAS No.: 7558-79-4
- Sodium azide CAS No.: 26628-22-8

#### New Jersey Right To Know Components

- Sodium phosphate dibasic anhydrous CAS No.: 7558-79-4
- Sodium azide CAS No.: 26628-22-8

#### **California Prop. 65 Components**

Does not contain listed substances.

# **SECTION 16: Other information**

#### Abbreviations and acronyms

ACGIH - American Conference of Governmental Industrial Hygiensts DOT - Department of Transportation IARC - International Agency for Research on Cancer IATA-DGR - International Air Transport Association-Dangerous Goods Regulations ICAO-TI - International Civil Aviation Organization-Technical Instructions IMDG - International Maritime Code for Dangerous Goods LTV - Long Term Value NIOSH - National Institute for Occupational Safety and Health NTP - National Toxicology Program OSHA - Occupational Safety & Health Administration PBT - Persistent, Bioaccumulative and Toxic PEL - Permissible Exposure Limit STV - Short Term Value SVHC - Substances of Very High Concern TDG - Transport of Dangerous Goods TLV - Threshold Limit Value vPvB - very Persistent, very Bioaccumulative

Additional information Indication of changes: none/none

The above information is believed to be correct but does not purport to be all-inclusive and shall be used only as a guidance. The information in this document is based on the present state knowledge and is applicable to the product with regard to appropriate safty precautions. It does not represent any guarantee of the properties of the product. VWR International and his Affiliates shall not be held liable for any damage resulting from handling.
